REZONING QUESTIONS

1. Has the landowner or any person undertaken or initiated any efforts to develop the property in its existing zoning classification? Please provide a complete statement of the efforts for such development?

Property currently has 3 structures and I am proposing adding a fourth. Access to barns and building already in place and electrical already established as well as a drilled well and septic system.

2. Is development under the present zoning classification infeasible? If yes, please provide a complete statement describing why development is infeasible?

Yes, while I currently sell farm raised products from premises, my desire is to broaden those sales from outside purchase, i.e. meat sales, plants, seeds, and other outside sources.

3. Does the applicant know of similarly situated properties, within 1/2 to 1 mile, that have been developed in a manner as proposed? If so, please list the location of the similar property with respect to the subject property.

No

4. Is the subject property a portion of a larger tract? ☒ Yes ☐ No If yes, please describe the original tract size, and what portion you are requesting to rezone:

The original size is 27.93 Acres and the proposed rezoning is approximately 4.5 Acres. I am currently waiting on final exact dimensions from survey.

5. Are there any houses, barns, mobile homes, commercial buildings, or structures presently located on the subject property? If so, please identify the number of structures and their type:

Yes. 1 pole barn 40x60 with 18ft. sheds. - 1 30x40 pole barn with concrete floor - 1-30x40 shop enclosed with concrete floor and elect.

7. Please state any pertinent facts, circumstances, events, and or documents that should be considered to support a decision to rezone the property to the proposed zoning classification and use.

Future Land Use: Agriculture

Acres: 4.83

Parcel Number(s): 067-0151

Location: 815 Roopville Veal Rd

PROJECT DESCRIPTION: The applicant is requesting to rezone 4.83 acres from Agriculture to Commercial for an agricultural mercantile store. SURROUNDING PROPERTIES:

Current Zoning		Current Land Use
North	Agriculture	Agriculture
East	Agriculture	Agriculture/Residential
South	Agriculture	Agriculture
West	Agriculture	Residential

REVIEW CRITERIA AND STANDARDS FOR CONSIDERING ZONING DECISIONS:

A. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby property.

The proposed zoning, if approved, will permit a use that would be suitable in view of the development of adjacent and nearby property. This agricultural store would serve the mostly agricultural area.

B. Whether the zoning proposal will adversely affect the existing use of adjacent or nearby property.

The proposed zoning, if approved, would not adversely affect the surrounding properties.

C. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools.

The proposed zoning, if approved, would not cause excessive or burdensome uses of facilities, utilities, or schools.

D. Whether the zoning proposal is not in conformity with the policy and intent of the land use plan.

The proposed zoning, if approved, does not meet the intent of the future land use plan. The future land use for this property is Agriculture, which does not allow for commercial store sales.

E. Whether there are other existing or changing conditions affecting the use and development of the property which give supporting grounds for either approval or disapproval of the zoning proposal.

There are no other existing or changing conditions affecting the use and development of the property to give supporting grounds for approval or disapproval of the zoning proposal.

DEPARTMENTAL COMMENTS:

Carroll County Public Works: My only comment would be to widen and improve the existing driveway if that's the one they are planning on using.

Carroll County Fire: No comments at the time of this report.

Carroll County Board of Education: Carroll County School System is good with this request.

Carroll County Water Authority: There is a 6-inch waterline along the north side of Roopville Veal Road and a fire hydrant along the frontage of the property. Anticipated static pressure is +/-50 PSI. No improvements needed. Carroll County Water Authority did not review proposed development for fire protection requirements. Zoning Analysis does not reserve water capacity.

Carroll County Engineer:

STAFF COMMENTS: The applicant is requesting to rezone 4.83 acres from Agriculture to Commercial for an agricultural mercantile store. The retail store would sell meat, plants, feed, and other farm/agricultural products to the local community. The proposed store would be a 30x40 enclosed structure. While not in agreement with the future land use map, an agricultural store would complement the agricultural use of the surrounding parcels and area if conditioned to this specific proposed use.

STAFF RECOMMENDATION: Approval- With a stipulation: If approved, the applicant must adhere to the current proposed use of the application. Any other use in the future will have to go back before the Board for approval.

PUBLIC NOTIFICATIONS: As required by Sections 14.3 and 14.4 of the Carroll County Zoning Ordinance, the public has been notified in the *Times-Georgian* by December 1, 2023; a sign was posted on the subject property, and all abutting property owners received notification of the rezoning request via U.S. mail.

SCOPE OF WORK

Carroll County Public Works will leave all brick, block and concrete including slabs and footings generated from the demolition of the Carroll County Administration Building. CDS will then mobilize, crush all concrete, brick and block and prepare all material for hauling. Carroll county public works will then provide hauling for all crushed material to be delivered to 330 Cross Plains Hulett Rd Carrollton, GA at no cost to CDS.

NOTE: All, brick, block and concrete slated to be crushed must be free of dirt, trash and misc. debris. If the material is not clean, if left dirty, the concrete would not be worth crushing because it would make an unusable gravel product.
