## **Independent Auditor's Report**

Honorable Chairman and  
Members of the Board of Commissioners  
Carroll County, Georgia

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Carroll County, Georgia, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### **Auditor's Responsibility**

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Carroll County Department of Public Health, the Carroll County Water Authority, and the Carroll City-County Hospital Authority, which represent 97.6% of the assets, 90.1% of the net position, and 99.9% of the revenues of the County's component units for the year ended June 30, 2019. Those statements were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts included for the Carroll County Department of Public Health, the Carroll County Water Authority, and the Carroll City-County Hospital Authority, is based solely on the reports of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. The financial statements of the Carroll City-County Hospital Authority were not audited in accordance with *Government Auditing Standards*. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, based on our audit and the reports of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Carroll County, Georgia, as of June 30, 2019, and the respective changes in financial position and, where applicable, cash flows thereof, and the respective budgetary comparison of the General Fund and Sheriff's Narcotics Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## Other Matters

### *Required Supplementary Information*

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and the required supplementary information on pages 4 through 11 and 73 through 76, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Carroll County, Georgia's basic financial statements. The combining and individual fund financial statements and schedules and the schedule of projects financed with special purpose local option sales tax are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules and the schedule of projects financed with special purpose local option sales tax are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and the schedule of projects financed with special purpose local option sales tax are fairly stated in all material respects in relation to the basic financial statements as a whole.

We also have previously audited, in accordance with auditing standards generally accepted in the United States, Carroll County, Georgia's basic financial statements for the year ended June 30, 2018, which are not presented with the accompanying financial statements. In our report dated December 7, 2018, we expressed unmodified opinions on the respective financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information. That audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Carroll County's basic financial statements as a whole. The combining and individual fund financial statements and schedules related to the 2018 financial statements are presented for the purposes of additional analysis and are not a required part of the financial statements.

The combining and individual fund financial statements and schedules related to the 2018 financial statements are the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the 2018 basic financial statements. The information has been subjected to the auditing procedures applied in the audit of those basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the 2018 combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the basic financial statements from which they have been derived.

#### **Other Reporting Required by *Government Auditing Standards***

In accordance with *Government Auditing Standards*, we have also issued our report dated December 5, 2019, on our consideration of Carroll County, Georgia's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Carroll County, Georgia's internal control over financial reporting and compliance.

## **MANAGEMENT'S DISCUSSION AND ANALYSIS**

---

As management of Carroll County, Georgia, we offer readers of Carroll County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended June 30, 2019. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in the financial statements and the notes to the financial statements.

### **Financial Highlights**

- The assets of Carroll County (the primary government) exceeded its liabilities at June 30, 2019 by \$129,571,709 (net position) vs. \$125,042,992 as of June 30, 2018.
- At June 30, 2019, the County's General Fund reported a total fund balance of \$14,190,397, an increase of \$2,587,430, or 22.3% from the last fiscal year.

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to Carroll County's basic financial statements. The County's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

### **Government-wide Financial Statements**

The government-wide financial statements are designed to provide readers with a broad overview of Carroll County's finances, in a manner similar to a private-sector business. There are two government-wide statements, the statement of net position and the statement of activities, which are described below.

The statement of net position presents information on all of the County's assets and liabilities, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating. It is important to note that this statement consolidates the governmental fund's current financial resources (short-term) with capital assets and long-term liabilities.

The statement of activities presents information showing how the County's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

The governmental activities of the County include general government, judicial, public safety, public works, health and welfare, culture and recreation, and economic development.

The government-wide financial statements include not only Carroll County itself (known as the primary government), but also the Carroll County Department of Public Health, the Development Authority of Carroll County, the Carroll County Water Authority and the Carroll City-County Hospital Authority. These are legally separate entities that are component units of the County due to the significance of their operational or financial relationships with the County. Financial information for these component units is reported separately from the financial information presented for the primary government itself.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

### Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. Carroll County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds and fiduciary funds.

**Governmental Funds.** Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Carroll County maintains governmental funds to account for the following activities: General; Special Revenue (Sheriff's Narcotics, Emergency Telephone System, Hotel/Motel Tax, Special Tax District, DATE Account, Law Library, Clerk's Cooperative, Juvenile Court - Supervision Fee, Jail House Store, Correctional Institute Commissary, Correctional Institute Inmate Education, Alternative Dispute Resolution, and Special Projects); Debt Service (2015 SPLOST Debt Service); and Capital Projects (2009 SPLOST, 2015 SPLOST, and DFACS). Information is presented separately in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, Sheriff's Narcotics Special Revenue Fund, 2015 SPLOST Debt Service Fund, 2015 SPLOST Capital Projects Fund, and DFACS Capital Projects Fund, which are considered to be major funds. Data from the other governmental funds are combined into a single, aggregated column. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report. Carroll County adopts an annual appropriated budget for its general, special revenue, and debt service funds. Carroll County adopts project length budgets for its capital projects funds. A budgetary comparison statement has been provided for the General Fund and Sheriff's Narcotics Fund.

**Proprietary Fund.** The County maintains one type of proprietary fund. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The County uses an enterprise fund to account for its Solid Waste Fund activities.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Solid Waste Fund, which is considered to be a major fund of the County.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

**Fiduciary Funds.** Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support Carroll County's own programs. The accounting used for fiduciary funds is much like that used in the government-wide financial statements.

### Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

### Required Supplementary and Other Information

The County presents required supplementary information related to its defined benefit pension plan immediately following the notes to the financial statements. The combining statements referred to earlier in connection with non-major governmental funds are presented immediately following the notes to the required supplementary information on pages 77 through 80.

### Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of Carroll County, assets exceed liabilities by \$129,571,709 at the close of the most recent fiscal year.

By far the largest portion of the County's net position (76.1%) reflects its investment in capital assets (e.g., land, buildings, machinery and equipment, and roads); less any related debt used to acquire those assets that is still outstanding. The County uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of Carroll County's net position (11.1%) represents resources that are subject to external restrictions on how they may be used. These amounts include funds set aside for debt service, unspent bond proceeds restricted for capital outlay and special purpose local option sales tax proceeds restricted for capital outlay. The remaining net position of \$16,507,154 represents unrestricted net position.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### Financial Analysis of the Government's Funds

As noted earlier, Carroll County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

**Governmental Funds.** The focus of Carroll County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$34,722,605, an increase of \$102,846 in comparison with the prior year. Approximately 35.2% of this total amount (\$12,228,713) constitutes unassigned fund balance, which is available for spending at the government's discretion. The remainder of fund balance is restricted (\$20,604,674), committed (\$1,670,710), nonspendable (\$105,695), and assigned (\$112,813) to indicate that it is not available for new spending because it has already been obligated.

The General Fund is the chief operating fund of Carroll County. At the end of the current fiscal year, unassigned fund balance of the General Fund was \$12,228,713, while total fund balance reached \$14,190,397. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 23.9% of total general fund expenditures, while total fund balance represents 27.7% of that same amount.

The fund balance of the County's General Fund increased during the current fiscal year by \$2,587,430.

The Sheriff's Narcotics Fund accounts for cash received either as a result of a cash confiscation or proceeds from a sale of capital assets acquired from a drug raid. At the end of the current fiscal year, the Sheriff's Narcotics Fund had a restricted fund balance of \$534,738, an increase of \$122,757 from the prior fiscal year.

The 2015 SPLOST Debt Service Fund accounts for the financial resources accumulated and payments made for principal and interest on the special purpose local option sales tax general obligation bonds. At the end of the current fiscal year, the 2015 SPLOST Debt Service fund had a restricted fund balance of \$47,165, an increase of \$44,131 from the prior fiscal year.

The 2015 SPLOST Capital Projects Fund accounts for the financial resources provided from the 2015 one percent Special Purpose Local Option Sales Tax. These resources must be used for various building projects and road improvements throughout the County. At the end of the current fiscal year, the 2015 SPLOST Capital Projects Fund had a restricted fund balance of \$15,433,982, a decrease of \$4,994,585 from the prior fiscal year. This decrease in fund balance is expected as revenues are collected and projects are completed.

The DFACS Capital Projects Fund accounts for the financial resources to be used for construction of a facility for DFACS financed by lease proceeds. At the end of the current fiscal year, the DFACS Capital Projects Fund had a restricted fund balance of \$2,350,957, an increase of \$2,350,957 from the prior fiscal year. This is a new fund for the current fiscal year.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

### General Fund Budgetary Highlights

The original budget of the general fund projected a net change in fund balance of \$0. During the course of the year, the budget was amended to project a final net change in fund balance of \$0. The County ended the fiscal year with total revenues exceeding budgeted amounts and total expenditures below budgeted amounts.

### Capital Asset and Debt Administration

**Capital Assets.** At the end of the current fiscal year, governmental activities and business-type activities had capital assets of \$113,063,165 (net of accumulated depreciation) invested in land, buildings, system improvements, infrastructure, and machinery and equipment. Capital assets increased as a result of purchases and contributed assets.

## MANAGEMENT'S DISCUSSION AND ANALYSIS

---

**Long-term Debt.** At the end of the current fiscal year, Carroll County had total bonded debt outstanding of \$13,955,000. All of this debt is backed by the full faith and credit of the government.

### Carroll County's Outstanding Debt

	Governmental Activities	
	2019	2018
General obligation bonds	\$ 13,955,000	\$ 20,665,000
Original issue premiums	1,059,505	1,612,291
Net general obligation bonds	<u>\$ 15,014,505</u>	<u>\$ 22,277,291</u>

Carroll County's total debt decreased during the current fiscal year by \$7,262,786.

Additional information regarding the County's long-term debt can be found in Note 11 of this report.

### Economic Factors and Next Year's Budgets

- The unemployment rate for Carroll County is currently 4.0%, which is a decrease from a rate of 4.5% one year ago.
- In the next fiscal year, Carroll County intends to continue to receive revenues from the Special Purpose Local Option Sales Tax (SPLOST). This money will continue to help fund the construction of new roads and bridges, paving of dirt roads, and pay for other capital improvement projects.
- Property, sales, and other taxes are expected to increase over the current fiscal year amounts due to continued economic improvement.

All of these factors were considered in preparing Carroll County's budgets for the next fiscal year.

### Requests for Information

This financial report is designed to provide a general overview of Carroll County's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Finance Director, Carroll County, 323 Newnan Street, Carrollton, Georgia 30117.

**CARROLL COUNTY, GEORGIA**  
**RECONCILIATION OF THE STATEMENT OF**  
**REVENUES, EXPENDITURES, AND CHANGES IN**  
**FUND BALANCES OF GOVERNMENTAL FUNDS**  
**TO THE STATEMENT OF ACTIVITIES**  
**For the fiscal year ended June 30, 2019**

**Net change in fund balances - total governmental funds** **\$ 102,846**

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.

Capital outlays	\$ 8,090,125	
Depreciation	<u>(6,739,643)</u>	1,350,482

In the statement of activities, the gain/loss on the disposal of assets is reported, whereas in the governmental funds, the proceeds from the sale of capital assets increases financial resources.

Cost of assets disposed	(522,837)	
Related accumulated depreciation	<u>295,389</u>	(227,448)

Contributions of capital assets from other governments and developers increase net position in the statement of activities, but do not appear in the governmental funds because they are not financial resources.

Cost of assets contributed	1,047,938	
Related accumulated depreciation	<u>0</u>	1,047,938

Distributions of capital assets to other governments decrease net position in the statement of activities, but do not appear in the governmental funds because they do not use financial resources.

Cost of assets distributed	(1,258,922)	
Related accumulated depreciation	<u>53,539</u>	(1,205,383)

Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.

Recognition of unavailable property taxes		(19,421)
---	--	----------

Governmental funds report pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned, net of employee contributions, is reported as pension expense.

Pension contributions	45,757	
Cost of benefits earned, net of employee contributions	<u>(250,265)</u>	(204,508)

The proceeds of debt issuance, net of premiums, discounts and issuance costs provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. In addition, interest on long-term debt is not recognized in the governmental funds until due, but is recognized in the statement of activities as it accrues.

Capital lease proceeds	(3,500,000)	
Bond principal payments	6,710,000	
Amortization of bond premiums	552,786	
Decrease in accrued interest payable	<u>(24,523)</u>	3,738,263

Some expenses reported in the statement of activities do not require the use of current financial resources and are not reported as expenditures in governmental funds.

Compensated absences		<u>(32,561)</u>

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
***For the fiscal year ended June 30, 2019***

**1. Description of Government Unit**

Carroll County, Georgia (the "County") was created by legislative act in 1826 and operates under a County Commissioners form of government, providing the following services as authorized by its charter: public safety, highways and streets, health and social services, culture-recreation, courts, correctional institute, public improvements, planning and zoning, and general administrative services.

The financial statements have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the County's accounting policies are described below.

**2. Summary of Significant Accounting Policies**

***A. Description of Government-wide Financial Statements***

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. All fiduciary activities are reported only in the fund financial statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and other nonexchange transactions, are reported separately from business-type activities, which rely to a significant extent on fees and charges to external customers for support. Likewise, the primary government is reported separately from certain legally separate component units for which the primary government is financially accountable.

***B. Reporting Entity***

As required by generally accepted accounting principles, the financial statements of the reporting entity include those of Carroll County (the primary government) and material component units. The component units discussed below are included in the County's reporting entity because of the significance of their operational and financial relationship with the County.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

***B. Reporting Entity, continued***

In conformity with generally accepted accounting principles, as set forth in Governmental Accounting Standards Board Statement No. 14, *The Financial Reporting Entity*, as amended by Statement No. 61, the financial statements of component units have been included either as blended or discretely presented component units.

Discretely Presented Component Units – Discretely presented component units are reported in a separate column in the combined financial statements to emphasize it is legally separate from the government.

Carroll County Department of Public Health (the "Health Department") – The Health Department is governed by a seven-member board consisting of one member of the County Commissioners and three members as appointed by the County Commissioners. The County has the authority to modify and approve the Health Department's budget and the ability to approve environmental health service fees. The Health Department has a June 30th year-end. Separate financial statements for the Health Department can be obtained by writing to the Carroll County Department of Public Health, 1004 Newnan Road, Carrollton, Georgia 30117.

Development Authority of Carroll County (the "Development Authority") – The Development Authority is governed by a nine-member board consisting of one member of the County Commissioners and eight members as appointed by the County Commissioners. The Development Authority functions to promote economic development in Carroll County. The Development Authority has a June 30th year-end. Separate financial statements for the Development Authority can be obtained by writing to the Development Authority of Carroll County, 200 Northside Drive, Carrollton, Georgia 30117.

***B. Reporting Entity, continued***

Carroll City-County Hospital Authority ("the Hospital Authority") – The Hospital Authority is governed by a nine-member board consisting of one member of the County Commissioners and eight members as appointed by the County Commissioners. The Hospital Authority owns Tanner Medical Center which operates two hospitals within the County. The County is obligated to pay the principal and interest on the Hospital Authority's revenue anticipation certificates should there be a default in payment by levying an additional tax. The Hospital Authority has a June 30th year-end. Separate financial statements for the Hospital Authority can be obtained by writing to the Carroll City-County Hospital Authority, 705 Dixie Street, Carrollton, Georgia 30117.

Carroll County Water Authority (the "Water Authority") – The Water Authority is governed by a nine-member board consisting of seven members appointed by the County Commissioners. The Water Authority provides water and related services to the citizens in Carrollton and Carroll County. The County possesses the authority to review, approve and revise the Water Authority's budget. The County is obligated to pay the principal and interest on certain Water Authority debt to the Georgia Environmental Facilities Authority (GEFA 09-013, GEFA 09-014, GEFA 10-010) should there be a default by levying an additional tax. The Water Authority has a June 30th year-end. Separate financial statements for the Water Authority can be obtained by writing to the Carroll County Water Authority, P.O. Box 739, Carrollton, Georgia 30112.

Certain county officials collect and disburse taxes, fees, fines, and other trust and agency receipts. Separate records of accountability are maintained for such receipts. For purposes of this report, these records are included as a part of agency funds with remittances to the General Fund from these officials recorded as revenue. Operating costs for these officials are included as a part of the County's General Fund. These units include:

Tax Commissioner	Probate Court	Clerk of Court
Sheriff	Magistrate Court	Juvenile Court

**2. Summary of Significant Accounting Policies (continued)**

**C. Basis of Presentation – Government-wide Financial Statements**

While separate government-wide and fund financial statements are presented, they are interrelated. The governmental activities column incorporates data from governmental funds, while business-type activities incorporate data from the government's enterprise funds. Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements.

As discussed earlier, the government has four discretely presented component units. While they are not considered to be major component units, they are nevertheless aggregated and shown in a separate column in the government-wide financial statements.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements.

**D. Basis of Presentation – Fund Financial Statements**

The fund financial statements provide information about the government's funds, including its fiduciary funds and blended component units. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds. Major individual governmental and enterprise funds are reported as separate columns in the fund financial statements.

The County reports the following major governmental funds:

**General Fund** – The General Fund is the government's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

**Sheriff's Narcotics Special Revenue Fund** – accounts for cash received either as a result of a cash confiscation or cash receipted from a sale of capital assets acquired from a drug raid.

**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

***D. Basis of Presentation – Fund Financial Statements, continued***

***2015 SPLOST Debt Service Fund*** – accounts for the resources accumulated and payments made for principal and interest on the General Obligation Sales Tax Bonds, Series 2013.

***2015 SPLOST Capital Projects Fund*** – accounts for the proceeds of a 1 percent local option sales tax approved in 2013 for a period of time not to exceed six years for the purpose of financing long-term projects.

***DFACS Capital Projects Fund*** – accounts for financial resources to be used for construction of a facility for DFACS financed by lease proceeds.

The County reports the following major proprietary fund:

***Solid Waste Enterprise Fund*** – accounts for the activities of the County's solid waste management operations. All activities necessary to provide such services are accounted for in the fund.

Additionally, the government reports the following fund types:

***Governmental Fund Types***

***Special Revenue Funds*** – accounts for the proceeds of specific revenue sources that are legally or donor restricted to be expended for specified purposes.

***Debt Service Funds*** – accounts for the accumulation of resources and payment of general government long-term debt principal and interest from governmental resources.

***Capital Projects Funds*** – accounts for financial resources to be used for the acquisition or construction of specifically planned projects (other than those financed by proprietary funds).

**2. Summary of Significant Accounting Policies (continued)**

***D. Basis of Presentation – Fund Financial Statements, continued***

***Fiduciary Fund Types***

***Agency Funds*** – Agency Funds are custodial in nature and do not present results of operations or have a measurement focus. Agency funds are accounted for using the economic resources measurement focus and the accrual basis of accounting. These funds are used to account for assets that are held either for the County or for others.

During the course of operations the government has activity between funds for various purposes. Any residual balances outstanding at year end are reported as due to/from other funds and advances to/from other funds. While these balances are reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Balances between the funds included in governmental activities (i.e., the governmental funds) are eliminated so that only the net amount is included as internal balances in the governmental activities column. Similarly, balances between the funds included in business-type activities (i.e., the enterprise funds) are eliminated so that only the net amount is included as internal balances in the business-type activities column.

Further, certain activity occurs during the year involving transfers of resources between funds. In fund financial statements these amounts are reported at gross amounts as transfers in/out. While reported in fund financial statements, certain eliminations are made in the preparation of the government-wide financial statements. Transfers between the funds included in governmental activities are eliminated so that only the net amount is included as transfers in the governmental activities column. Similarly, balances between the funds included in business-type activities are eliminated so that only the net amount is included as transfers in the business-type activities column.

***For the fiscal year ended June 30, 2019***

**2. Summary of Significant Accounting Policies (continued)**

***E. Measurement Focus and Basis of Accounting***

The accounting and financial reporting treatment is determined by the applicable measurement focus and basis of accounting. Measurement focus indicates the type of resources being measured such as current financial resources or economic resources. The basis of accounting indicates the timing of transactions or events for recognition in the financial statements.

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period.

Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences, and claims and judgments, are recorded only when payment is due. General capital asset acquisitions are reported as expenditures in governmental funds. Issuance of long-term debt and acquisitions under capital leases are reported as other financing sources.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

***E. Measurement Focus and Basis of Accounting, continued***

Property taxes, sales taxes, franchise taxes, licenses, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Entitlements are recorded as revenues when all eligibility requirements are met, including any time requirements, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). Expenditure-driven grants are recognized as revenue when the qualifying expenditures have been incurred and all other eligibility requirements have been met, and the amount is received during the period or within the availability period for this revenue source (within 60 days of year-end). All other revenue items are considered to be measurable and available only when cash is received by the government.

The proprietary funds are reported using the economic resources measurement focus and the accrual basis of accounting.

***F. Revenues and Expenditures/Expenses***

Program revenues include: 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. All taxes, including those dedicated for specific purposes, and other internally dedicated resources are reported as general revenues rather than as program revenues.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the Solid Waste Fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

**G. Budgetary Information**

Budgets are adopted on a basis consistent with generally accepted accounting principles. An annual appropriated budget is adopted for the General Fund and the following special revenue funds and debt service funds: Sheriff's Narcotics Fund, Emergency Telephone System Fund, Hotel/Motel Tax Fund, Special Tax District Fund, DATE Account Fund, Law Library Fund, Clerk's Cooperative Fund, Juvenile Court – Supervision Fee Fund, Jail House Store Fund, Correctional Institute Commissary Fund, Correctional Institute Inmate Education Fund, Alternative Dispute Resolution Fund, Special Projects Fund, and 2015 SPLOST Debt Service Fund. All annual appropriations lapse at fiscal year-end. Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriations, is utilized in the governmental funds. Encumbrances outstanding at year-end are included in the appropriate fund balance classification and do not constitute expenditures or liabilities because the commitments will be reappropriated and honored during the subsequent year. The County had no outstanding encumbrances at the end of the current fiscal year.

The County follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1) Prior to January 1, the Department Heads submit to the County Chief Administrative Officer a proposed operating budget for the fiscal year commencing the following July 1. The operating budget includes proposed expenditures and the means of financing them. The proposed budgets are then submitted to the Board of Commissioners by the County Chief Administrative Officer for study.
- 2) Public hearings are conducted at the Historic Courthouse to obtain taxpayer comments.
- 3) Prior to July 1, the budget is legally adopted by the Board of Commissioners.
- 4) The County Chairman is authorized to transfer budgeted amounts between line items within a department; however, any revisions that increase salaries must be approved by the Board of Commissioners. All appropriations at year end lapse.

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

**G. *Budgetary Information, continued***

- 5) Formal budgetary integration is employed as a measurement control device during the year for the General Fund, Sheriff's Narcotics Fund, Emergency Telephone System Fund, Hotel/Motel Tax Fund, Special Tax District Fund, DATE Account Fund, Law Library Fund, Clerk's Cooperative Fund, Juvenile Court – Supervision Fee Fund, Jail House Store Fund, Correctional Institute Commissary Fund, Correctional Institute Inmate Education Fund, Alternative Dispute Resolution Fund, Special Projects Fund, and 2015 SPLOST Debt Service Fund.
- 6) The budget for the General Fund and the Special Revenue Funds are adopted on a basis consistent with generally accepted accounting principles (GAAP) and are presented in accordance with finance-related legal and contractual provisions.

**H. *Cash and Investments***

The County's cash and cash equivalents are considered to be cash on hand, demand deposits, certificates of deposit, and other short-term investments with original maturities of three months or less from the date of acquisition. For the purpose of the proprietary fund type statement of cash flows, the County considers all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased to be cash equivalents.

The statutes of the State of Georgia authorize the County to invest in U.S. Government obligations; obligations fully insured or guaranteed by the U.S. Government or by a government agency of the United States; obligations of any Corporation of the U.S. Government; State of Georgia obligations and other States; obligations of other counties, municipal corporations and political subdivisions of the State of Georgia; repurchase agreements when collateralized by U.S. Government or agency obligations; prime banker's acceptances; certificates of deposit or time deposit of any national state bank or savings and loan which have deposits insured by the FDIC or FSLIC; and pooled investment programs sponsored by the State of Georgia for the investment of local government funds.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

***H. Cash and Investments, continued***

In accordance with the provisions of GASB Statement No. 31, Accounting and Financial Reporting for Certain Investments and for External Investment Pools, the County has reported the investments at fair value. Money market investments and those investments which had a remaining maturity at the time of purchase of one year or less are recorded at amortized cost or cost plus accrued interest, which approximates fair value. The fair value of all other investments are calculated using quoted market prices because these prices have been determined to be the most reliable and verifiable and are the most understood by investors, creditors and other users of financial information.

All investment income including changes in the fair market value of investments has been reported as revenue in the operating statements.

***I. Intergovernmental Receivables***

Receivables from state, federal, and local governments are recorded as revenue for the period of the allocation or as earned based on expenditures made for which reimbursement is due.

***J. Inventories***

Inventories are valued at cost, which approximates market, using the first-in, first-out (FIFO) method. The costs of governmental fund-type inventories are recorded as expenditures when purchased.

***K. Prepaid Items***

Payments made to vendors for services that will benefit periods beyond the current fiscal year are recorded as prepaid items. The costs of governmental fund-type prepaid items are recorded as expenditures when consumed rather than when purchased.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

**L. Capital Assets**

Capital assets, which include property, plant, equipment, intangible assets (i.e., easements) and infrastructure assets (i.e., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the County as assets with an initial, individual cost of \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend useful lives are expensed as incurred. Major outlays for capital assets and major improvements are capitalized as projects are constructed. Interest incurred during the construction period of capital assets of the business-type activities is included as part of the capitalized value of the assets constructed. The amount of interest capitalized is calculated by offsetting interest expense incurred (from the date of borrowing until the date of completion of the project) with interest earned on investment proceeds over the same period. During the current fiscal year, no amount of interest was capitalized.

The County has fully implemented the retroactive reporting of infrastructure assets and intangible assets.

Depreciation is computed using the straight-line method over the estimated useful lives of the respective assets ranging as follows:

	<b><u>Useful Life in Years</u></b>
Buildings	50
Machinery and equipment	5-20
Land improvements	15-30
Infrastructure	40

The County's intangible assets, which are included in the County's capital assets, are considered to have indefinite useful lives, and therefore are not amortized.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

***M. Deferred Outflows/Inflows of Resources***

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense / expenditure) until then. The County reports deferred outflows of resources related to their defined benefit pension plan.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The County reports deferred inflows of resources for unavailable revenues, which arises only under a modified accrual basis of accounting and is reported only in the governmental funds balance sheet. The governmental funds report unavailable revenues from property taxes. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The County also reports deferred inflows of resources related to their defined benefit pension plan.

***N. Net Position Flow Assumption***

Sometimes the County will fund outlays for a particular purpose from both restricted (e.g., restricted bond or grant proceeds) and unrestricted resources. In order to calculate the amounts to report as restricted – net position and unrestricted – net position in the government-wide and proprietary fund financial statements, a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted – net position to have been depleted before unrestricted – net position is applied.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

***O. Fund Balance Flow Assumption***

Sometimes the County will fund outlays for a particular purpose from both restricted and unrestricted resources (the total of committed, assigned, and unassigned fund balance). In order to calculate the amounts to report as restricted, committed, assigned, and unassigned fund balance in the governmental fund financial statements a flow assumption must be made about the order in which the resources are considered to be applied. It is the County's policy to consider restricted fund balance to have been depleted before using any of the components of unrestricted fund balance. Further, when the components of unrestricted fund balance can be used for the same purpose, committed fund balance is depleted first, followed by assigned fund balance. Unassigned fund balance is applied last.

***P. Restricted Assets and Restricted Net Position***

Restricted assets represent certain resources restricted by funding source or required to be set aside for the repayment of debt. They are maintained in a separate bank account and their use is limited.

Restricted net position is equal to the excess of the restricted assets funded from operations over the liabilities to be paid with restricted assets which are due in one year or less. Restricted assets exclude bond proceeds for calculation of restricted net position.

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

**Q. Fund Balances – Governmental Funds**

Carroll County implemented GASB No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, in 2012. In the fund financial statements, governmental funds report the following classifications of fund balance:

**Nonspendable** – includes amounts that cannot be spent because they are either not spendable in form or are legally or contractually required to be maintained intact.

**Restricted** – includes amounts restricted by external sources (creditors, laws of other governments, etc.) or by constitutional provision or enabling legislation.

**Committed** – includes amounts that can only be used for specific purposes. Committed fund balance is reported pursuant to constraints imposed by formal action of the Board of Commissioners through the adoption of a resolution or motion. The Board of Commissioners also may modify or rescind the commitment.

**Assigned** – includes amounts that are intended to be used by the County for a specific purpose, but do not meet the definition of restricted or committed fund balance. Through resolution or motion, the Board of Commissioners has authorized the County's Finance Director or Commission Chairman to assign fund balances.

**Unassigned** – includes amounts that do not fall into one of the above four categories. This classification represents fund balance that has not been assigned to other funds and that has not been restricted, committed, or assigned to specific purposes within the General Fund. The General Fund is the only fund that should report positive unassigned fund balance. Negative unassigned fund balances may be reported in all funds. The County has not formally adopted a financial policy regarding a General Fund minimum unassigned fund balance.

**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

***R. Compensation for Future Absences***

It is the County's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. There is no liability for non-vesting accumulated rights to receive sick pay benefits. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in governmental funds when it is expected to be liquidated with available resources.

The Health Department employs Georgia State Merit personnel and, therefore, provides employee benefits to include the accumulation of annual leave similar to the benefits provided to other State of Georgia employees.

***S. Long-Term Obligations***

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts, as well as prepaid bond insurance, are deferred and amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Prepaid bond insurance is reported as deferred charges and amortized over the term of the debt. Issuance costs are recognized during the current period.

In the fund financial statements, governmental fund types, bond premiums and discounts, as well as issuance costs, are recognized during the current period. The face amount of debt issued is reported as an other financing source. Premiums received on debt issuances are reported as other financial sources while discounts on debt issuances are reported as other financing uses. Issuance costs, even if withheld from the actual net proceeds received, are reported as debt service expenditures.

**For the fiscal year ended June 30, 2019**

**2. Summary of Significant Accounting Policies (continued)**

***T. Capital Contributions***

Federal, state and local government assistance in the form of grants that are permanent in nature and restricted for the construction or acquisition of specific property and equipment is recorded as an asset and as non-operating revenue.

***U. Use of Estimates in the Preparation of the Financial Statements***

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**3. Deposit and Investment Risk**

**Custodial Credit Risk – Deposits**

Custodial credit risk is the risk that in the event of a financial institution failure, the County's deposits may not be returned. The County has no formal policy, but follows the State of Georgia requirement that all deposits be federally insured or fully collateralized.

**Interest Rate Risk**

Interest rate risk is the risk that changes in interest rates may adversely affect an investment's fair value. The County has no formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

**Credit Risk**

State statutes authorize the government to invest in obligations of the United States Treasury (100%) and of its agencies and instrumentalities (80%); bonds or certificates of indebtedness of this state and of its agencies and instrumentalities (25%); certificates of deposits of banks insured by FDIC (75%); prime bankers' acceptances (10%); the State of Georgia Local Government Investment Pool (100%); repurchase agreements (25%); bonds, debentures, notes or other evidence of indebtedness of any solvent corporation subject to certain conditions (0%).

**NOTES TO THE FINANCIAL STATEMENTS**  
**For the fiscal year ended June 30, 2019**

**3. Deposit and Investment Risk (continued)**

**Concentration of Credit Risk**

Carroll County places no limit on the amount it may invest in any one issuer.

**Foreign currency risk**

The County has no investments denominated in a foreign currency.

**7. Interfund Receivables and Payables**

A summary of interfund receivables and payables at the end of the current fiscal year was as follows:

<u>Receivable Fund</u>	<u>Payable Fund</u>	<u>Amount</u>
General	Solid Waste	\$ 103,057
	Nonmajor Governmental	327,861
		<u>\$ 430,918</u>

The balances reported as Due to/Due from represent loans between the borrower funds and the General Fund. These balances resulted from the time lag between the dates that transactions are recorded in the accounting system and payments between the funds are made.

Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

DFACS	2015 SPLOST	74,367
Nonmajor Governmental	General	19,835
		<u>\$ 7,749,352</u>

Interfund transfers are used to 1) move revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them, and 2) use unrestricted revenues collected to finance various programs accounted for in other funds in accordance with budgetary authorizations.

Transfers are eliminated in the government-wide financial statements if the interfund transfer is within the governmental fund group or business-type fund group.

**10. Capital and Operating Lease Agreements**

The County has entered into an agreement for the lease of a facility. The terms of the agreement meet the criteria of a capital lease as defined by Statement of Financial Accounting Standards No. 13, which defines a capital lease generally as one which transfers benefits and risk of ownership to the lessee. Upon any event of default by the County, the lessor may immediately initiate legal proceedings to evict the County and the County's effects from the building. The principal balance of the lease at the end of the current fiscal year is \$3,500,000 for governmental activities. At the end of the current fiscal year, assets leased under the capital lease are construction in progress totaling \$1,113,054, with related accumulated amortization of \$0. When construction is completed and the building is placed in service, it will have a useful life of 50 years. \$0 was included in depreciation expense for the leased assets for the current fiscal year.

## 10. Capital and Operating Lease Agreements (continued)

The following is a schedule of the future minimum lease payments together with the present value of the net minimum lease payments at the end of the current fiscal year:

<b>Fiscal Year Ending June 30,</b>	<b>Governmental activities</b>
2020	\$ 294,471
2021	293,954
2022	293,865
2023	294,568
2024	295,065
2025 - 2029	1,474,988
2030 - 2034	1,483,969
Total payments	4,430,880
Less amounts representing interest	(930,880)
Present value of minimum lease payments	<u>\$ 3,500,000</u>

The County's lease agreements, other than such agreements described above, are relatively minor commitments and are in compliance with state law.

## 11. Long-Term Debt

### ***Governmental Activities***

#### ***General Obligation Bonds***

The County issues general obligation bonds to provide funds to pay, or to be applied or contributed toward, the cost of constructing, improving, expanding and extending public roads, highways, streets and related facilities as well as the acquisition, construction, improvement and expansion of park and recreation facilities, and water system improvement.

General obligation bonds are direct obligations of the County and are payable from the levy of an ad valorem tax, without limitation as to rate or amount, levied on all taxable property, including all real property, within the County subject to taxation for general obligation bond purposes. In certain instances specific revenues are pledged for servicing the debt, but the full faith, credit and taxing power of the County is ultimately responsible.

**NOTES TO THE FINANCIAL STATEMENTS**  
*For the fiscal year ended June 30, 2019*

**11. Long-Term Debt (continued)**

***Governmental Activities, continued***

***General Obligation Bonds, continued***

**General Obligation Sales Tax Bonds, Series 2013:** During the fiscal year ended June 30, 2014, Carroll County, Georgia issued \$40,000,000 of General Obligation Sales Tax Bonds, Series 2013. The proceeds from the bonds are to be used to fund a portion of the 2015 SPLOST Carroll County projects and City of Carrollton projects. The bonds are direct and general obligations of the County. The principal of and interest on the Bonds are payable first from a one percent sales and use tax received by the County and the City of Carrollton. To the extent that the proceeds of the Sales and Use Tax received by the County and the City of Carrollton are insufficient to make such payments, the principal of and interest on the Bonds are payable from an ad valorem tax, unlimited as to rate or amount, which may be levied upon all taxable property within the territorial limits of the County subject to taxation for general obligation bond purposes. Amounts were allocated from the bond proceeds sufficient to pay the semi-annual interest amounts for both the County and the City, for the period from issue until December 1, 2015. The City of Carrollton received \$10,472,500 from the bond proceeds. This represents 25% of the bond principal plus premium less a pro rata share of cost of issuance. The bond principal is reflected as a receivable from the City of Carrollton because the bonds issued are a general obligation of the County. Therefore, the full amount of bonds payable is reflected in the County's liabilities. The City of Carrollton will pay 25% of the bond interest and principal each year. Interest paid by the City will be recognized as interest income on the receivable, and the County will recognize the full amount of interest expense on the Bonds. The City's portion of bond principal paid will decrease the receivable from the City, while the County will use the proceeds to pay down its bonds payable balance.

The annual requirements to amortize general obligation bonds payable, including interest varying from 1.0% to 5.0%, at the end of the current fiscal year are as follows:

<b>Fiscal Year Ending June 30,</b>	<b>Principal</b>	<b>Interest</b>	<b>Total</b>
2020	\$ 6,880,000	\$ 676,750	\$ 7,556,750

## **16. Retirement Plans**

### ***Defined Benefit Pension Plan***

The County sponsors the Association County Commissioners of Georgia Restated Pension Plan for Carroll County Employees (the "Plan"), which is a defined benefit pension plan. This plan covers eligible County employees as of July 15, 1999 who made a one-time irrevocable choice to continue participating in the Plan. No employee hired after July 15, 1999 is eligible to participate in this plan.

*Plan Description.* The Plan provides retirement, disability and death benefits to plan members and beneficiaries. The Plan is affiliated with the Association County Commissioners of Georgia Defined Benefit Plan (the ACCG Plan), an agent multiple-employer defined benefit pension plan administered by the Government Employee Benefits Corporation of Georgia (GEBCorp). The ACCG, in its role as the Plan sponsor, has the sole authority to amend the provisions of the ACCG Plan, as provided in Section 19.03 of the ACCG Plan document. The County retains the authority to amend the adoption agreement, which defines the specific operational provisions of the Plan. A separately issued financial report of the Plan may be obtained by writing GEBCORP at 400 Galleria Parkway, Suite 1250, Atlanta, Georgia 30339.

Participant counts as of January 1, 2018, the date of the most recent actuarial valuation, are as follows:

Retirees, beneficiaries and disablees receiving benefits	47
Terminated plan participants entitled to but not yet receiving benefits	61
Active employees participating in the plan	<u>0</u>
Total number of plan participants	<u><u>108</u></u>

***Defined Benefit Pension Plan, continued***

*Benefits Provided.* Any full-time employee meeting the provisions as set out in the Adoption Agreement is eligible to participate. No new participants after July 1, 1999. Members who have attained age 65 with 5 years of service are eligible for normal retirement. Members who have attained age 60 with 10 years of service and 3 years of plan participation are eligible for early retirement. Members who have 10 years of service and who are deemed to be totally disabled by the Federal Social Security Administration are eligible for disability retirement. Participants are 100% vested after 5 years of service. Benefits are based on years of credited service. The benefit is payable monthly for life equal to the participant's accrued benefit at retirement. Accrued benefit is calculated as 1.00% of average annual compensation up to \$6,600 plus 1.50% of average annual compensation in excess of \$6,600 plus \$36 multiplied by years of service. The Plan also provides for pre-retirement and post-retirement death benefits.

*Contributions.* The County is required to contribute at an actuarially determined rate. Section 47-20 of the Georgia Code sets forth the minimum funding standards for state and local governmental pension plans. The County's actuarially determined contribution rate for the current fiscal year was \$45,757. There were no active employees participating in the Plan during the current fiscal year. Administrative expenses are based on total covered compensation of active plan participants and are added to the state-required annual funding requirement.

The Georgia Constitution enables the governing authority of the County, the Board of Commissioners, to establish, and amend from time-to-time the contribution rates for the County and its plan participants.

*Pension Liabilities, Pension Expense, Deferred Outflows of Resources, and Deferred Inflows of Resources Related to Pensions.* At the end of the current fiscal year, the County reported a net pension liability of \$1,006,881. The net pension liability was measured as of December 31, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of January 1, 2018. For the current fiscal year, the County recognized pension expense of \$250,265. For governmental activities, the net pension liability is liquidated by the General Fund.

***Defined Benefit Pension Plan, continued***

Amounts reported as deferred outflows and deferred inflows of resources will be recognized in pension expense as follows:

<b>Year Ending June 30</b>		
2020	\$	65,393
2021		29,922
2022		21,873
2023		51,036
Totals	\$	<u>168,224</u>

*Actuarial Assumptions.* The total pension liability in the January 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.00%
Future salary increases	4.00% per year with an age based scale
Cost of living adjustments	N/A
Net investment rate of return	7.00%
Healthy mortality rates were based on the RP-2000 Combined Healthy Mortality Table.	
Disabled rates were derived from the 1985 CIDA Table Class I.	

The mortality and economic actuarial assumptions used in the January 1, 2018 valuation were based on the results of an actuarial experience study for the period of January 1, 2010 through June 30, 2014.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

**NOTES TO THE FINANCIAL STATEMENTS**  
*For the fiscal year ended June 30, 2019*

**16. Retirement Plans (continued)**

***Defined Benefit Pension Plan, continued***

The pension plan's target asset allocation as of December 31, 2018 is summarized in the following table:

	<b>Target Allocation</b>	<b>Range</b>
Fixed Income	30%	25%-35%
Large Cap	30%	25%-35%
Mid Cap	5%	2.5%-10%
Small Cap	5%	2.5%-10%
REIT	5%	2.5%-10%
International	15%	10%-20%
Multi Cap	5%	2.5%-10%
Global Allocation	5%	2.5%-10%

*Discount Rate.* The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from employer will be made at contractually required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on Plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

*Sensitivity of the Net Pension Liability to Changes in the Discount Rate.* The following presents what the net pension liability would be if it were calculated using a discount rate that is one percentage-point lower (6.00 percent) or one percentage-point higher (8.00 percent) than the current rate:

	<b>Discount Rate</b>	<b>Net Pension Liability</b>
1% decrease	6.00%	\$ 1,231,279
Current discount rate	7.00%	1,006,881
1% increase	8.00%	810,508

*Plan Fiduciary Net Position.* Detailed information about the Plan's fiduciary net position is available in the separately issued Association of County Commissioners of Georgia GEBCorp financial report.

***Defined Contribution Plan***

All full-time employees of Carroll County who have performed at least six months of service are allowed to participate in the Carroll County Money Purchase Plan (the "Money Purchase Plan") administered by Nationwide Retirement Solutions Company. This plan is intended to qualify under the Internal Revenue Code Section 401(a). Plan provisions and contribution requirements are established and may be amended by the Carroll County Board of Commissioners. The County is required to contribute 1% of compensation for each participant with less than three years of service and 6% of compensation for each participant with three or more years of service. Participants' vesting in the Money Purchase Plan is based on years of credited service, as defined. A participant becomes 100% vested after five years of credited service. Total County contributions for the current fiscal year were \$1,368,130.

***Deferred Compensation Plan***

The County offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The Plan, available to all County employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The County contributes a match of up to 3% of compensation. This match is contributed to the Carroll County Money Purchase Plan. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency. Employee contributions for the current fiscal year were \$1,033,568.

In accordance with GASB Statement No. 32 "Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans," the assets and liabilities of the County's Deferred Compensation Plan are not included within the County's financial statements.

During the current fiscal year, the Department contributed \$157,470. At the end of the current fiscal year, the Department reported a net liability in the amount of \$658,729 for its proportionate share (0.028635% for the State of Georgia OPEB Fund and 0.033344% for the SEAD-OPEB Fund) of the net OPEB liability. The Department recognized OPEB expense of (\$49,515) for the current fiscal year. Further information regarding the plans can be obtained from Department's annual audit report by contacting Carroll County Department of Public Health, 1004 Newnan Road, Carrollton, Georgia 30116.

**18. Hotel/Motel Lodging Tax**

The County has levied a 6% lodging tax in accordance with OCGA 48-13-51. Twenty percent and forty percent of the tax received is paid to the Carroll County Chamber of Commerce and the Carrollton Area Convention and Visitors Bureau, respectively, to promote tourism within Carroll County. A summary of the transactions for the current fiscal year follows:

Lodging Tax Receipts	\$ 49,541
Disbursements for trade and tourism	\$ 29,742 60% of tax receipts

**19. Tax Abatements**

Carroll County is subject to tax incentives granted by various authorities in the County. These incentives are negotiated on an individual basis as a reduction of property taxes based on the percentage negotiated and have the stated purpose of increasing business activity and employment in the County by allowing localities to abate property taxes for a variety of economic development purposes, including business relocation, retention, and expansion. The incentives may be granted to any business located within or promising to relocate to a local government's geographic area and have various requirements regarding job creation and capital investments.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
***For the fiscal year ended June 30, 2019***

**19. Tax Abatements (continued)**

Each of the incentive agreements contains a recapture provision that requires repayment of a portion of the abatement for that year if the business fails to meet its jobs and/or investment goals. The County has not made any commitments as part of the agreements other than to reduce taxes.

For the current fiscal year, Carroll County property taxes were abated totaling \$533,581 under this program through authorities as follows: \$425,871 through the Carrollton Payroll Development Authority and \$107,710 through the Villa Rica Development Authority.

Individual tax abatement agreements that each exceeded ten percent of the total amount abated are as follows:

- Property tax abatement (ranging from 20% to 100% by parcel) for a local manufacturer expanding its manufacturing facilities located in Carroll County. The abatement amounted to \$173,354.
- 60% property tax abatement for a local manufacturer expanding its manufacturing facility located in Carroll County. The abatement amounted to \$70,639.
- Property tax abatement (ranging from 80% to 100% by parcel) for a local manufacturer expanding its manufacturing facility located in Carroll County. The abatement amounted to \$67,040.

**20. Joint Ventures**

Under Georgia law, the County, in conjunction with other cities and counties in the five county west-central Georgia area, is a member of the Three Rivers Regional Commission (TRRC) and is required to pay annual dues thereto. During the current fiscal year, the County paid \$117,812 in such dues. A portion of this amount was paid on behalf of the Cities and Towns within Carroll County, including the following: City of Bowdon, City of Carrollton, City of Mount Zion, Town of Roopville, City of Temple, City of Villa Rica, and City of Whitesburg. Membership in an RC is required by the Official Code of Georgia Annotated (OCGA) Section 50-8-34, which provides for the organizational structure of regional commissions in Georgia. The TRRC Board membership includes the chief elected official in each county and municipality of the area. OCGA 50-8-39.1 provides that the member governments are liable for any debts or obligations of an RC. Separate financial statements may be obtained from Three Rivers Regional Commission, 120 North Hill Street, Griffin, Georgia.

**20. Joint Ventures (continued)**

Carroll County, the City of Douglasville, Haralson County, Coweta County and Heard County are members of the Western Area Regional Radio System Authority, which was created to provide an interoperable, high quality, and reliable and uninterrupted communication signal for public safety and public services. During the current fiscal year, the County paid \$185,000 to the Authority for its annual subscription. The Act creating the Authority provides that obligations of the Authority shall not be deemed to constitute a debt of the establishing local governments nor a pledge of the faith and credit of said establishing local governments. Separate financial statements may be obtained from the Treasurer of the Authority, 155 Van Wert Street, Buchanan, Georgia 30113.

**21. Risk Management**

The County is exposed to various risks of loss related to torts; theft of, damage to, and assets; errors and omissions; and natural disasters for which the County carries commercial insurance. The County purchases commercial insurance to cover property and professional liability claims.

The County participates in the Association of County Commissioners of Georgia Group Self-Insurance Workers' Compensation Fund, a public entity risk pool currently operating as a common risk management and insurance program for member local governments. Insurance coverage is a \$300,000 per occurrence deductible.

As part of this risk pool, the County is obligated to pay all contributions and assessments as prescribed by the pool, to cooperate with the pool's agents and attorneys, to follow loss reduction procedures established by the funds, and to report as promptly as possible, and in accordance with any coverage descriptions issued, all incidents which could result in the funds being required to pay any claim of loss. The County is also to allow the pool's agents and attorneys to represent the County in investigation, settlement discussions and all levels of litigation arising out of any claim made against the County within the scope of loss protection furnished by the funds.

The fund is to defend and protect the members of the funds against liability or loss as prescribed in the member government contract and in accordance with the workers' compensation law of Georgia, the fund is to pay all costs taxed against members in any legal proceeding defended by the members, all interest accruing after entry of judgment, and all expenses incurred for investigation, negotiation or defense.

## 21. Risk Management (continued)

Settled claims in the past three years have not exceeded the coverages.

As required by GASB Statement No. 10 Accounting and Financial Reporting for Risk Financing and Related Insurance Issues, liabilities for claims are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNRs). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trends including frequency and amount of pay-outs and other economic and social factors. The liability is reported in accrued liabilities in the General Fund as expenditures and liabilities to the extent that the amounts are payable with expendable available financial resources.

	<b>Workers'</b> <b>Compensation</b>	<b>Health and</b> <b>Dental</b>	<b>Total</b>

<b>Ending Balance</b>	<u>\$ 880,000</u>	<u>\$ 734,771</u>	<u>\$ 1,614,771</u>

## 22. Commitments and Contingencies

### ***Commitments***

The County has active construction projects at the end of the current fiscal year. At the end of the current fiscal year, the County's commitments with contractors consisted of \$260,732 committed to the construction of a new gymnastics facility, \$1,882,917 committed to the construction of the DFACS facility, and \$1,146,771 committed to the construction of the Tyus-Carrollton Road over Little Tallapoosa River Bridge..

### ***Contingencies***

The County is involved in a number of legal matters, which either have or could result in litigation. The nature of the lawsuits varies considerably. In the opinion of County management, the outcome of these contingencies will not have a material effect on the financial position of the County. The County will continue to assert its position in a defense against these claims.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE FINANCIAL STATEMENTS**  
***For the fiscal year ended June 30, 2019***

**22. Commitments and Contingencies (continued)**

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to disallowance of certain expenditures previously reimbursed by those agencies. Based upon prior experience, County management believes such disallowances, if any, will not be significant.

**23. Nonexchange Financial Guarantees**

The County has entered into agreements with the Carroll County Water Authority at various times related to notes from direct borrowings. The agreements stated if the Authority is unable to pay the principal and interest on its Georgia Environmental Facilities Authority notes, the County will levy annually an ad valorem tax sufficient to enable the Authority to meet the obligations under the terms of the notes. The notes require monthly payments of principal and interest through 2051, with interest rates ranging between 1.00% and 3.00%. At the end of the current fiscal year, the total outstanding principal balance of the notes is \$12,795,815. The agreements will remain in effect until such time as the notes have been paid in full. The County has not made any payments on the notes and does not anticipate future payments on the notes.

The County has entered into contracts with the Carroll City-County Hospital Authority at various times for debt issuances for Tanner Medical Center, Inc. (TMC). The contracts stated if TMC is unable to pay the principal and interest on its 2008, 2010, 2015, 2016, and 2016B certificates, the County will levy annually an ad valorem tax sufficient to enable the Authority to meet the obligations under the terms of the certificates. The certificates require annual principal payments and semi-annual interest payments through 2046, with interest rates ranging from 2.00% to 5.00%. At the end of the current fiscal year, the outstanding principal balance of the certificates is \$152,830,000. The agreement will remain in effect until such time as the certificates have been paid in full. The County has not made any payments on the certificates and does not anticipate future payments on the certificates.

**24. New Accounting Pronouncements**

The County implemented Governmental Accounting Standards Board Statement No. 88, *Certain Disclosures Related to Debt, Including Direct Borrowings and Direct Placements*. The requirements of this statement are effective for periods beginning after June 15, 2018.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION**  
**June 30, 2019**

**1. Valuation Date**

The actuarially determined contribution rate was determined as of January 1, 2018 with an interest adjustment to the fiscal year.

**2. Methods and Assumptions Used to Determine Contribution Rates**

Actuarial cost method = Entry age normal

Amortization method = Closed level dollar for remaining unfunded liability

Remaining amortization period = Remaining amortization period varies for the bases, with a net effective amortization period of 15 years

Asset valuation method = Smoothed market value with a 5-year smoothing period

Net investment rate of return = 7.00%

Projected salary increases = 4.00% per year with an age based scale

Cost of living adjustments = N/A

Normal retirement age for inactive vested participants = 65 with 5 years of vesting service

Mortality = Healthy mortality rates were based on the RP-2000 Combined Healthy Mortality Table. Disabled rates were derived from the 1985 CIDA Table Class I.

**CARROLL COUNTY, GEORGIA**  
**NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION**  
**June 30, 2019**

**3. Changes in Benefits**

There have been no substantive changes since the last actuarial valuation.

**4. Changes of Assumptions**

Due to the significant surplus in the Pre-Retirement Death Pool, the 2018 expense for the pre-retirement death benefit has been reduced to zero.

The mortality improvements for the RP-2000 mortality table is projected to 2018 instead of 2017 with Scale AA.

The investment return assumption was decreased from 7.25% to 7.00%.

The turnover table was changed to the Vaughn Select and Ultimate Table through age 54.

The disability table was changed from the 1977 Social Security Table to the 1985 CIDA Table Class I through age 59.

The salary increase assumption was revised as follows:

- The adjustment to the base rate was reduced from 1.5% to 1.0% for participants under age 30 and from 1.0% to 0.5% for participants from ages 30 – 39.
- The base salary scale remained at 4.0%.

### ***ENTERPRISE FUND***

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises. The funds are self-supporting in nature where the costs, including depreciation, of providing goods or services to the general public on a continuing basis are financed or recovered primarily through user charges.

Solid Waste Fund – This fund is used to account for the activities of County's solid waste management operations. All activities necessary to provide such services are accounted for in the fund.

***OTHER REPORTING SECTION***

This page intentionally left blank.

**Independent Auditor's Report on Internal Control over Financial Reporting and on  
Compliance and Other Matters Based on an Audit of Financial Statements  
Performed In Accordance with *Government Auditing Standards***

Honorable Chairman and  
Members of the Board of Commissioners  
Carroll County, Georgia

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Carroll County, Georgia, as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise Carroll County, Georgia's basic financial statements and have issued our report thereon dated December 5, 2019. Our report includes a reference to other auditors who audited the financial statements of the Carroll County Department of Public Health, Carroll County Water Authority, and the Carroll City-County Hospital Authority as described in our report on the County's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors. The financial statements of the Carroll City-County Hospital Authority were not audited in accordance with *Government Auditing Standards*.

**Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Carroll County, Georgia's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Carroll County, Georgia's internal control. Accordingly, we do not express an opinion on the effectiveness of Carroll County, Georgia's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify the following deficiencies in internal control that we consider to be significant deficiencies:

## **2019-001**

*Condition:* County personnel may require additional training in the application of generally accepted accounting principles and the preparation of financial statements. Currently, the County relies on the external auditors for technical assistance in applying generally accepted accounting principles and the preparation of the financial statements. This is common for governments of similar size and structure to the County. This does not indicate that the Finance Director is not trained to perform the daily accounting functions, but that the County has elected as a cost benefit to outsource this expertise to their auditors.

*Criteria:* The inability of the staff to prepare the complete financial statements, including the required note disclosures, without the auditor's assistance, indicates a significant deficiency over the financial reporting process.

*Cause:* County personnel do not have the necessary training in the application of generally accepted accounting principles and the preparation of financial statements.

*Effect:* Failure to properly design and implement internal controls over year-end close and reporting may lead to financial statements that are materially misstated and may result in delays in the County's reporting process.

*Recommendation:* County personnel should continue to receive training in the identification and application of generally accepted accounting principles and the preparation of the County's financial statements.

*Management Response:* Management concurs with this finding. Finance staff will continue classes to obtain/renew certifications and obtain additional training on GASB 34, the preparation of the government-wide financial statements, and the reconciling items for full accrual statements. This action was taken immediately upon receipt of the comment from our auditors.

## **2019-002**

*Condition:* There is not appropriate segregation of duties between recording, distribution, and reconciliation of cash accounts and other operational functions in certain departments, component units, and constitutional offices of the County.

*Criteria:* Segregation of duties is a key internal control whereby the authorization, custody, record keeping, and reconciling duties are separated among several persons.

*Cause:* There are several departments, component units, and constitutional offices of the County in which the segregation of duties could be improved.

*Effect:* Failure to properly segregate the duties exposes the County to a greater risk of loss due to fraud.

*Recommendation:* Segregation of duties should be implemented to the extent practical and accounting records should be reviewed by responsible officials on a regular basis.

*Management Response:* Management concurs with this finding. The County Administration will work to continually improve and implement as many procedures as possible to improve internal controls in this area. This action was taken immediately upon receipt of the comment from our auditors.

## **2019-003**

*Condition:* While performing audit procedures at the Probate Court, we noted instances where deposits were not made timely. We noted 5 of 25 (20%) marriage and firearm license receipts tested and 9 of 21 (43%) probate cases receipts tested were held for more than seven days before depositing.

## **2019-003, continued**

*Criteria:* Proper internal controls require that cash receipts be deposited and transactions recorded in a timely manner.

*Cause:* Probate Court personnel are not depositing receipts at a minimum once per week.

*Effect:* Failure to deposit cash receipts in a timely manner exposes the County to a greater risk of loss due to fraud.

*Recommendation:* At a minimum, deposits should be made weekly.

*Management Response:* Management concurs with this finding. Management has provided a copy of this finding to the appropriate Elected Official and they concur with this finding. This action was taken immediately upon receipt of the comment from our auditors.

## **2019-004**

*Condition:* While performing audit procedures at the Sheriff's Department, we noted instances where deposits were not made timely. We noted multiple receipts in the Commissary Account and Bonds and Fees Account were held for more than seven days before depositing.

*Criteria:* Proper internal controls require that cash receipts be deposited and transactions recorded in a timely manner.

*Cause:* Sheriff's Department personnel are not depositing receipts at a minimum once per week.

*Effect:* Failure to deposit cash receipts in a timely manner exposes the County to a greater risk of loss due to fraud.

*Recommendation:* At a minimum, deposits should be made weekly.

*Management Response:* Management concurs with this finding. Management has provided a copy of this finding to the appropriate Elected Official and they concur with this finding. This action was taken immediately upon receipt of the comment from our auditors.

## **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Carroll County, Georgia's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

## **Carroll County, Georgia's Responses to Findings**

Carroll County, Georgia's responses to the findings identified in our audit are described previously. Carroll County, Georgia's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

**Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Carroll County, Georgia's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
